

NTR plc, the international renewable energy group, which builds and runs green energy and resource sustaining businesses, has a desire to make a strong statement about its corporate commitment to environmental issues. For this reason, the NTR Board decided to establish the NTR Foundation.

## What We Do

International Projects | NTR Group Projects | Policy & Research

There are three strands to the work of the NTR Foundation. Each responds to the global environmental challenges of climate change, sustaining natural resources and addressing security of energy supply.

International Projects

NTR Group Projects

Policy & Research

### 1 International Projects

The NTR Foundation will invest in a small number of large multi-annual international projects that involve both service provision and thought leadership. The NTR Foundation will seek to support existing work underway, either through strategic partnerships and/or directly into well-led organisations, which have a strong track record of success.

### 2 NTR Group Projects

Each year, businesses in the NTR plc portfolio will have the opportunity to receive matched funding from the NTR Foundation for projects that have a direct impact in their own communities in the US, UK and Ireland. These projects will be entrepreneurial solutions to the challenges of climate change, resource sustainability and security of energy supply.

### 3 Policy & Research

The NTR Foundation will foster and publish independent research, which serves to increase the knowledge base in its core funding areas. This, combined with the evidence base generated from its investments, will enable the NTR Foundation to act as a credible contributor to policy debates.

securing a **greener** future

## Vision

The NTR Foundation is working to secure a greener future, for this and future generations.

## Our Mission

The NTR Foundation's mission is to address the challenges posed by climate change, resource sustainability and security of energy supply, through the provision of targeted financial and expert support to projects, research and non-governmental organisations.

In keeping with NTR's entrepreneurial heritage, the NTR Foundation will support projects that address these issues in an entrepreneurial way.

## Our Values

The core values of excellence, entrepreneurship, impact, integrity, accountability and leadership will drive the work of the NTR Foundation.

## How We Work

*Impact*- The NTR Foundation focuses on achieving measurable societal and environmental impact.

*Harness Innovation and Support Entrepreneurship*- The NTR Foundation harnesses innovation and supports entrepreneurial projects, leveraging NTR Group Business' expertise, with the ultimate aim of bringing selected projects to scale.

*Build Capacity*- The NTR Foundation invests in organisational and community capacity, so that more people in more places can build better lives and futures.

*Accountability*- All NTR Foundation investments will be performance based, with a strong emphasis on good business planning and measurable outcomes. All projects will require transparent monitoring, evaluation and impact assessment.

*Strategic Partnerships*- The NTR Foundation will collaborate with other organisations committed to the same values and goals.
